GD X2 Rotary lid flap press

Leading innovator
for the
**TOBACCO
INDUSTRY**
with a passion to serve

Improve packet quality whilst reducing cleaning requirements with a rotary lid flap press upgrade

Issue	<ul style="list-style-type: none">• Excessive glue build up• Unreliable lid flap adhesion• Excessive cam abrasion
Consequences	<ul style="list-style-type: none">• Excessive glue on blank and machine parts• Excessive blank jams• Increased down time for cleaning - Loss of production
Solution	<ul style="list-style-type: none">• Removal of vertical motion anvil and replacement with indexing rollers for compression of the lid flap• Hardened scroll cam for indexing• Accurate compression to ensure adhesion with minimal glue presence
Advantages	<ul style="list-style-type: none">• Improved performance• Improved packet quality• Reduced cleaning
Scope	<ul style="list-style-type: none">• Rotary Lid Flap Press Group
Time required	<ul style="list-style-type: none">• Approx. machine down time: depending on lead time of machining• Total mechanical hours: 40 hours• Total mechanical hours: 0 hours (local electrical support possible)
Guarantee	<ul style="list-style-type: none">• One year guarantee

Suitable for all GD X2
